

Quintas win Euromoney awards

FINANCIAL advisors, **Quintas** Wealth Management, won best distributor performance (Ireland) at the recent Euromoney Structured Retail Products Awards ceremony in Milan.

The firm was also awarded runner-up in the best overall distributor (Ireland) category.

Over the last three years, **Quintas** has designed and distributed niche-structured products to intermediaries, launching 14 products covering general equities, hard commodities, private equity and soft commodi-

ties.

Eight of these products have matured, generating average annualised returns of more than 20% to clients.

Quintas investment director David O'Shea said: "The basis of our success has been strong independent research and product innovation.

"We identified an opportunity in the Irish market to provide investors access to broader investment offerings, which have been maturing with very high dividends.

"There was a tendency of Irish portfolios to be

heavily concentrated in equity and property, and as result there was significant correlation and con-

centration risk, with very little liquidity."

Quintas investment director David O'Shea and investment analyst James McCarthy, who picked up awards in Milan.
